

MFHA Partners with Securis to Provide Electronics Recycling & Hard Drive Destruction Event

Have you accumulated IT equipment that is now obsolete? As a way to offer value-added services and convenience to its members, the Masters of Foxhounds Association will partner with Securis to host an electronics recycling event to dispose of equipment in a secure and environmentally friendly way.

Event Information

- **Who:** All MFHA members and their guests. There will be a \$10 charge for each car. You may bring as many acceptable electronics as you'd like, although we ask that you don't bring more than one television and one monitor.
- **When:** Saturday, August 27, 2022, from 10am to 2pm, Rain or Shine
- **Where:** 301 E Washington St, Middleburg, VA 20117

Acceptable Items

- Securis will supply and operate its mobile data destruction equipment so residents can securely destroy information on their equipment (hard drives, tapes, and mobile phones only)
- Securis will remove and recycle all electronic equipment brought by residents. Please only bring one television and one monitor per car.
- All electronic equipment will be recycled in compliance with EPA requirements

Instructions

- Place your recyclable items in the trunk of your car. Staff will remove the equipment from your trunk
- Electronics Recycling with 100% Zero Landfill
- Data Destruction: This event will be offering hard drive shredding. A trained Securis technician will remove the hard drive from your computer, laptop or server. The hard drive is then dropped into our industrial shredder and ground into small pieces. The process only takes a few minutes. You will leave with the peace of mind that your information is gone forever.

If you have additional questions concerning this event, please contact your Securis representative, Andrew McNeill at a.mcneill@securis.com or visit securis.com/mfha-electronics-recycling.
